

## **PITIRIASIS STEATOIDE (GREASY DANDRUFF)**

The excess of oily secretions and the presence of a yeast (*Pityrosporum ovale*) on the scalp, cause a yellowy-golden plate, very adherent and not easily flaky which also causes, inflammation, redness and itchiness.

We must take into account that the edges of the plate are well marked, something which helps to distinguish PITIRIASIS STEATOIDE and DERMATITIS.

### **Greasy dandruff plate**

The causes as in the previous case, are different; problems with the nervous system, abnormal percentage of *Pityrosporum ovale*, problems with the immune system, inadequate diet, sebaceous hyper-secretion, very high water temperature and inadequate shampoo.

### **Treatment**

Prepare the scalp by applying Dermocapilar mask (ref. 28, 58) previously mixed with Herby (Ref. 25) and apply as if it were a dye, leave to act for 20 minutes, carry out this operation once a week to dirty hair.

Wash the hair at least three times a week with anti-oil shampoo (Ref. 17) alternating with Placent (Ref. 8).

Apply Marine Anti-Dandruff (Ref. 204) alternating with Natural Anti-oil 12 Herbs (Ref. 46) at least 3 times a week for 90 consecutive days.

Aplicar Anticaspa Marino (Ref. 204) alternando con Natural Antigrasa 12 Hierbas (Ref. 46) mínimo 3 veces semanales durante 90 días consecutivos.
